

Stacy J. Clark, President

Profile

Stacy J. Clark as President of Turnstone Corporation has lead the Company from inception through 10 successful years using her skills to build a reputable Company based on integrity, trust, quality of work and building strong relationships with clients. Stacy integrates the following attributes which substantiate her ability to lead and to build.

- Aptitude to listen, comprehend and spearhead a client-centered organization.
- Possesses excellent business judgment and operates a financially sound organization.
- Approachable leader to all project team members.
- Poised and competent with demonstrated ability to easily respond to owner and/or project needs.
- Instills culture of team and collaboration.
- Promotes individual and team growth through continuous learning. Encourages all team members to further develop their skills and knowledge.
- Cultivates confidence in all team members to take initiative when necessary to provide and maintain a safe, clean work site, comfort and trust with clients and relations that align with core values at all levels throughout the project. Immediate action to remedy a situation is an expectation and acceptable from any of the team members.
- Oversees the subcontractor selection process to ensure that there are qualified, honorable contributors working as a part of the team on all projects.

Stacy J. Clark is a motivated, personable executive who grew up in the construction industry; moved into the financial industry discovering through this professional development that she could utilize her construction background and financial business acumen to lead a much needed atypical construction business that breathes the highest level of integrity and commitment into every facet of its operation. This is attributable to her ability to lead, promote and instill the core values that Turnstone Corporation is known for and that permeate throughout the organization. She, along with Bill, has built a company of construction professionals that regard their work as a skill they are proud each day and this translates into a Team of People all working in the best interest of the owner.

Through her business dealings in the industry across all functions, she has built a reputation as a fair, knowledgeable and visionary. Stacy is a leader in the industry who is sought out for her balanced approach to business management in the construction industry - highlighting both financial and human performance.
